

## VISTA ROYALE COMPUTER CLUB

February 24, 2022

Hi Members:

President Mike Johnson welcomed members and guests. Current club membership is 65 members and you can still pay your 2022 dues any time the Lab is open .

Mike stated that VR Association annual Board of Directors ballots were mailed out on February 22, and that the correct ballot for paper ballot voters will be a yellow document. Beware of outdated ballots, that if used, may be invalid. For electronic ballot voters, it is unclear whether they will also receive a paper ballot, and also unclear when electronic voting may be opened. Watch for a possible notification for e-voters. Also, make sure that ONLY the designated voter for your unit does the signing or it will be invalid.

March 3 speaker will be Sandy McKenny and her subject will be Google Earth.

March 10 speaker will be from ACT Computers and their subject will be Windows 11.

Vicky Getz asked if any interest in DNA or Movie Maker for possible future topics.

Today, February 24, our speaker is Daryl Daniels and his subject is Travel Apps.

Daryl presented information and screen shots of the following Apps, all of which are available on the Apple App Store and the Android Store:

- Gas Buddy
- Waze
- I Exit
- Diners, Drive Ins, and Dives (DDD)
- Holland America Navigator App
- Marine Traffic

Also presented were scanning Apps:

- Photo Scan
- Scannable

Thank you, Daryl, for a fun and educational presentation of Apps that appear to be very useful.

Please visit our club website, [www.VRCC.info](http://www.VRCC.info) for minutes, calendar, and other informative club information.

Respectfully submitted by Steve Getz, substituting today for VRCC Secretary Sandy McKenny.
